

## Installing bibliographic/output styles

The EndNote team has developed over 5000 different output styles. Because installing all of these styles can slow performance, a typical EndNote installation includes only the most popular styles. You can install sets of styles by discipline with the EndNote installer, or you can download individual styles from the EndNote Website.

### Step 1 - Finding individual output styles on the EndNote website

You can use the Style Manager in EndNote to find and download individual output styles. To download individual output styles:

- From the Edit menu in EndNote, select Output Styles and then Open Style Manager.
- Click **Get More on the Web** to start your default browser and go to the appropriate page on the EndNote Website or go to <http://endnote.com/downloads/styles>
- Browse through an alphabetical listing of the available output styles or search the list, and download those files you want to install.
- **Save** the file

## Step 2 – Installing output styles

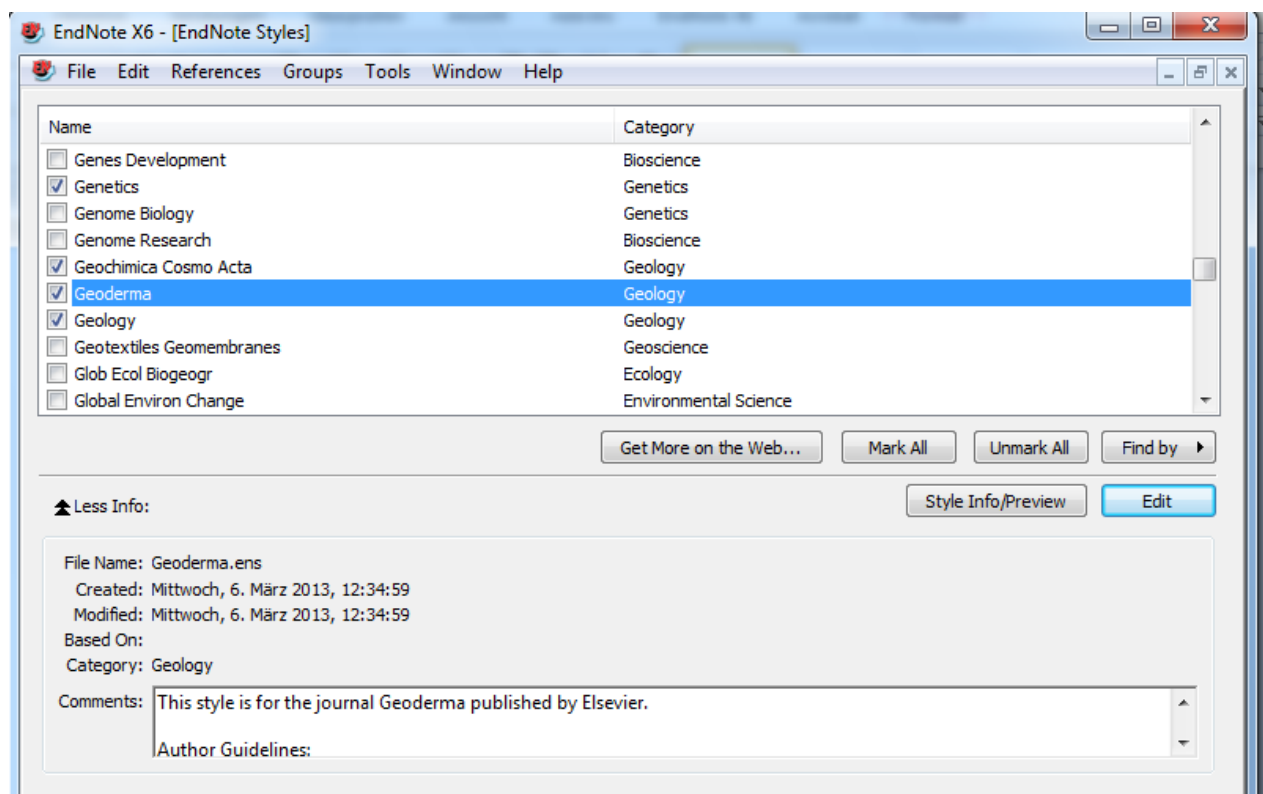

- **Copy** the downloaded files to your **Styles folder**, which is typically located at Program Files\EndNote X6\Styles, or to your personal Styles folder (see Folder Locations Preferences).
- If EndNote is still open, please **Exit** the program and then restart EndNote to read in the added output styles.
- The styles will now be available in EndNote to select for formatting.

## Step 3 - Changing Your List of Bibliography Styles

- Go to the library toolbar

- Choose **Other Styles** from the dropdown list
- Use the quick search to find your style **or**
- From the Edit menu, select **Output Styles** and then select **Open Style Manager**.
- Click in the box to the left of the style's name to choose it as one of your favorites.
- Close the Style Manager by clicking the close button or selecting Close Style Manager from the File menu.

## Step 4 – Edit output styles

- Go to **Edit > Output Styles > Open Style Manager**

The screenshot shows the EndNote Styles window with the 'Geoderma' style selected. The 'Geoderma' style is highlighted in blue in the list. Below the list, there are buttons for 'Get More on the Web...', 'Mark All', 'Unmark All', 'Find by', 'Style Info/Preview', and 'Edit'.

The 'Geoderma' style configuration window is open, showing the following details:
